

**Amendment/Response**

**Reply to Office Action of September 12, 2008**

**REMARKS/DISCUSSION OF ISSUES**

Claims 1-10, 13-14, and 18-20 are pending in this application, with claims 1, 13, and 18 being amended, while claims 11-12 and 15-17 are cancelled.

It is believed that the amendment to claim 18 does not involve new subject matter but rather clarifies what the term "selectively engageable" would mean to one skilled in the art.

**Rejections under 35 U.S.C. § 102**

(a) Claims 15-18 are rejected under U.S.C. § 102 as being anticipated by Leiferman et al. The rejection of the claims, as amended, is respectfully traversed.

Claims 15-17 are cancelled. Claim 18 is amended to recite that the brush includes a plurality of bristles. Bristles are not mentioned or suggested by Leiferman et al. Therefore, the rejection for anticipation is overcome.

New claims 19 and 20, being dependent upon and further defining independent claim 18, should be allowable for that reason, as well as for the additional recitations they contain. Therefore, reconsideration of the rejection of claim 18 under U.S.C. § 102 is respectfully requested.

(b) Claims 1-2, 6-8, and 11 are rejected under U.S.C. § 102 as being anticipated by Rix et al. The rejection of the claims, as amended, is respectfully traversed.

It is respectfully suggested that the Examiner is in error in equating the felt found in Rix et al. to the bristles required by claim 1. The interpretation of claim language is not unrestricted, but is limited to the broadest reasonable interpretation that is consistent both with the specification and with the interpretation that those skilled in the art would reach. MPEP Section 2111.

Applicant respectfully suggests that one skilled in the art would not equate felt bristles on a brush. As evidence of this respectful suggestion, Applicant includes at the end of this response the two pages printed out from a Google search on the Internet for the definitions of "bristle." It is clear from the results that one skilled in the art and reading the specification would not consider the bristles of the claims to be felt. Note also that the specification refers to

**Amendment/Response**

**Reply to Office Action of September 12, 2008**

cleaning surfaces 42 on page 3, paragraph 14, as including "a plurality of bristles, cloth, material containing cleaning agent, foam, a pad or sponge brush, or any combination thereof." The fact that Applicant has limited the recitation in claim 1 to "a plurality of bristles" signifies that the other possible cleaning surfaces mentioned in the specification are specifically excluded from the claim coverage, which includes felt as being a type of cloth.

It is respectfully suggested that the rejection of claim 1 for anticipation is overcome.

Claim 11 is cancelled, thus rendering its rejection moot.

Claims 2, and 6-8, being dependent upon and further defining independent claim 1, should be allowable for that reason, as well as for the additional recitations they contain. Therefore, reconsideration of the rejection of claims 1, 2, and 6-8 under U.S.C. § 102 is respectfully requested.

(c) Claims 1, 3, 6-9, and 13 are rejected under U.S.C. § 102 as being anticipated by Kozub. The rejection of the claims, as amended, is respectfully traversed.

Applicant respectfully suggests that the amendment to claim 1, with the recitation of "a resilient clamping mechanism which attaches said brush assembly to a faucet by stretching and then contracting onto said faucet", adds to claim 1 a limitation which is neither taught or suggested by Kozub. As clearly shown in Kozub, the brush assembly attaches to a golf cart wheel via an adapter 60. This attachment mechanism is not resilient, nor a clamp, certainly does not and cannot attach to a faucet, and doesn't attach by stretching and then contracting onto the faucet.

It is respectfully suggested that the rejection of claim 1 for anticipation is overcome.

Claims 3, 6-9, and 13, being dependent upon and further defining independent claim 1, should be allowable for that reason, as well as for the additional recitations they contain. Therefore, reconsideration of the rejection of claims 1, 3, 6-9, and 13 under U.S.C. § 102 is respectfully requested.

**Amendment/Response**

**Reply to Office Action of September 12, 2008**

**Rejections under 35 U.S.C. § 103(a)**

(a) Claims 4, 5, 10, and 14 are rejected under U.S.C. § 103(a) as being unpatentable over Kozub. The rejection of the claims is respectfully traversed.

Claims 4, 5, 10, and 14, being dependent upon and further defining independent claim 1, should be allowable for that reason, as well as for the additional recitations they contain. Therefore, reconsideration of the rejection of claims 4, 5, 10, and 14 under U.S.C. § 103(a) is respectfully requested.

(b) Claims 3, 4, 5, 9, 10, and 12 are rejected under U.S.C. § 103(a) as being unpatentable over Rix et al. The rejection of the claims is respectfully traversed.

Claim 12 is cancelled, thus rendering its rejection moot.

Claims 3, 4, 5, 9, and 10, being dependent upon and further defining independent claim 1, should be allowable for that reason, as well as for the additional recitations they contain. Therefore, reconsideration of the rejection of claims 3, 4, 5, 9, and 10 under U.S.C. § 103(a) is respectfully requested.

If any points are in issue that may be resolved through a personal or telephonic interview, the Examiner is respectfully requested to contact the undersigned at the telephone number indicated or by e-mail directed to [Chris@PatentingServices.com](mailto:Chris@PatentingServices.com).

Respectfully submitted,

/CRPastel/
